Values Statement

Approved April 19, 2018

Service to Others We strive to minimize the negative impact of substance abuse on families and our communities.

Work We strive to create economic opportunities for those who have been denied them due to substance abuse and alcohol. Working and making a contribution back to the community is an important part of recovery.

Stewardship and Responsibility We strive to be accountable to each other and good stewards of the agency and community resources.

Honesty and Integrity We operate at the highest ethical standards in all of our practices. We hope to bring the utmost authenticity of the individual through life skills and 12 step recovery.

Diversity We respect others and value diverse cultures and uniqueness of each person.

Excellence We will persistently create better ways of doing the things we do. We will not rest on our accomplishments, but will rather build on them in our personal and professional journey to be the best we can be.

Hope We believe healing and recovery spring from the soil of hope and optimism.

Compassion We strive to do everything with love and compassion for those who are in need.
